\* An English speaking guide will accompany the tour

The 'Noto' is surrounded by sea and mountains, and is a place with its own unique tradition and culture. However, the Noto way of life is in danger of extinction, due to an aging and declining population. Please come and experience the charm and natural beauty of the Noto! Please aid us in spreading awareness internationally about the need to preserve this way of life.

We are looking forward to meeting you in 'Noto'!
